Author Index

A

Abarzua, M. *See* Weinberg, Davis, Abarzua, and Rajan.

Abbott, W. G. H. *See* Lillioja, Young, Culter, Ivy, Abbott, Zawadzki, Yki-Järvinen, Christin, Secomb, and Bogardus.

Abboud, H. E., Poptic, E., and DiCorleto, P. Production of platelet-derived growth factorlike protein by rat mesangial cells in culture. 675

Abecassis, M., Falk, J. A., Makowka, L., Dindzans, V. J., Falk, R. E., and Levy, G. A. 16, 16 Dimethyl prostaglandin E_2 prevents the development of fulminant hepatitis and blocks the induction of monocyte/macrophage procoagulant activity after murine hepatitis virus strain 3 infection. 881

Abkowitz, J. L., Holly, R. D., and Grant, C. K. Retrovirus-induced feline pure red cell aplasia. Hematopoietic progenitors are infected with feline leukemia virus and erythroid burst-forming cells are uniquely sensitive to heterologous complement. 1056

Adams, J. G., III *See* Liebhaber, Coleman, Adams, Cash, and Steinberg.

Adamson, J. W. *See* Ballem, Segal, Stratton, Gernsheimer, Adamson, and Slichter.

Adkinson, N. F., Jr. *See* Pipkorn, Proud, Lichtenstein, Schleimer, Peters, Adkinson, Kagey-Sobotka, Norman, and Naclerio.

Agata, Y. *See* Padbury, Agata, Ludlow, Ikegami, Baylen, and Humme.

Agostoni, A. *See* Cicardi, Igarashi, Kim, Frangi, Agostoni, and Davis.

Agre, P. *See* Marchesi, Letsinger, Speicher, Marchesi, Agre, Hyun, and Gulati.

Agricola, B. *See* Nienhuis, Donahue, Karlsson, Clark, Agricola, Antinoff, Pierce, Turner, Anderson, and Nathan.

Aisenberg, A. C., Wilkes, B. M., and Jacobson, J. O. Rearrangement of the genes for the beta and gamma chains of the T cell receptor is rarely observed in adult B cell lymphoma and chronic lymphocytic leukemia. 1209

Aizawa, S., and Tavassoli, M. Interaction of murine granulocyte–macrophage progenitors and supporting stroma involves a recognition mechanism with galactosyl and mannosyl specificities. 1698

Akaboshi, I. *See* Indo, Kitano, Endo, Akaboshi, and Matsuda.

Akiba, T., Rocco, V. K., and Warnock, D. G. Parallel adaptation of the rabbit renal cortical sodium/proton antiporter and sodium/bicarbonate cotransporter in metabolic acidosis and alkalosis. 308

Albu, J. *See* Segal, Dunaif, Gutin, Albu, Nyman, and Pi-Sunyer.

Allen, R. A. *See* Parkos, Allen, Cochrane, and Jesaitis.

Aloisio, C. H. *See* McDougal, Kennedy, Nicholson, Spira, Jaffe, Kaplan, Fishbein, O'Malley, Aloisio, Black, Hubbard, and Reimer.

Alpern, R. J. *See* Preisig, Ives, Cragoe, Alpern, and Rector.

Alpers, J. D. *See* Reed, Alpers, and Nowell.

Alvarez, I. M. *See* Stacpoole, Bridge, Alvarez, Goldberg, and Harwood.

Amherdt, M., Patel, Y. C., and Orci, L. Selective binding of somatostatin-14 and somatostatin-28 to islet cells revealed by quantitative electron microscopic autoradiography. 1455

Anagnou, N. P. *See* Lin, Anagnou, Rutherford, Shimada, and Nienhuis.

Anderson, S. *See* Garcia, Rennke, Brenner, and Anderson.

— *See* Ortola, Ballermann, Anderson, Mendez, and Brenner.

Anderson, W. F. *See* Nienhuis, Donahue, Karlsson, Clark, Agricola, Antinoff, Pierce, Turner, Anderson, and Nathan.

Ando, K. *See* Fujita, Ito, Noda, Sato, Ando, Kangawa, and Matsuo.

Ando, Y., Jacobson, H. R., and Breyer, M. D. Phorbol myristate acetate, dioctanoylglycerol, and phosphatidic acid inhibit the hydroosmotic effect of vasopressin on rabbit cortical collecting tubule. 590

Antin, J. H., Ault, K. A., Rappeport, J. M., and Smith, B. R. B lymphocyte reconstitution after human bone marrow transplantation. Leu-1 antigen defines a distinct population of B lymphocytes. 325

Antinoff, N. *See* Nienhuis, Donahue, Karlsson, Clark, Agricola, Antinoff, Pierce, Turner, Anderson, and Nathan.

Antony, A. C., Bruno, E., Briddell, R. A., Brandt, J. E., Verma, R. S., and Hoffman, R. Effect of perturbation of specific folate receptors during in vitro erythropoiesis. 1618

—, Kincade, R. S., Verma, R. S., and Krishnan, S. R. Identification of high affinity folate binding proteins in human erythrocyte membranes. 711

Anversa, P. *See* Olivetti, Ricci, and Anversa.

Armstrong, M. L. *See* Harrison, Armstrong, Freiman, and Heistad.

Arnout, J. *See* Gresele, Arnout, Deckmyn, Huybrechts, Pieters, and Vermylen.

Arquilla, E. R. *See* Sodoyez-Goffaux, Sodoyez, Koch, Dozio, Arquilla, McDougall, De Vos, and von Frenckell.

Arthur, D. C. *See* Uckun, Kersey, Gajl-Peczalska, Heerema, Provisor, Haag, Gilchrist, Song, Arthur, Roloff, Lampkin, Greenwood, Dewald, and Vallera.

Assan, R. *See* Boitard, Feutren, Castano, Debray-Sachs, Assan, Hors, and Bach.

Aster, R. H. *See* Furihata, Nugent, Bissonette, Aster, and Kunicki.

Atkinson, S. *See* Sinha, Taylor, Pories, Flickinger, Meelheim, Atkinson, Sehgal, and Caro.

Attvall, S., Eriksson, B.-M., Fowelin, J., von Schenk, H., Lager, I., and Smith, U. Early posthypoglycemic insulin resistance in man is mainly an effect of β-adrenergic stimulation. 437

Ault, K. A. *See* Antin, Ault, Rappeport, and Smith.

B

Bach, J. F. *See* Boitard, Feutren, Castano, Debray-Sachs, Assan, Hors, and Bach.

Badger, T. M. *See* Gharib, Weirman, Badger, and Chin.

Bailey, G. S. *See* Jaffa, Miller, Bailey, Chao, Margolius, and Mayfield.

Bainton, D. F. *See* Miller, Bainton, Borregaard, and Springer.

— *See* Rosa, George, Bainton, Nurden, Caen, and McEver.

Bakaletz, A. P. *See* Cosio and Bakaletz.

Baker, M. Z. *See* Schiebinger, Baker, and Linden.

Ballatori, N. *See* Moseley, Ballatori, Smith, and Boyer.

Ballem, P. J., Segal, G. M., Stratton, J. R., Gernsheimer, T., Adamson, J. W., and Slichter, S. J. Mechanisms of thrombocytopenia in chronic autoimmune thrombocytopenic purpura. Evidence of both impaired platelet production and increased platelet clearance. 33

Ballermann, B. J. *See* Ortola, Ballermann, Anderson, Mendez, and Brenner.

Banks, L. M. *See* Stevenson, Banks, Spinks, Freemantle, MacIntyre, Hesp, Lane, Endacott, Padwick, and Whitehead.

Barrett, E. J. *See* Gelfand and Barrett.

Barth, K. C. *See* Zucali, Elfenbein, Barth, and Dinarello.

Barthelson, R., and Widdicombe, J. Cyclic adenosine monophosphate–dependent kinase in cystic fibrosis tracheal epithelium. 1799

Barzegar, S. *See* Conway, Bauer, Barzegar, and Rosenberg.

Bastl, C. P. Regulation of cation transport by low doses of glucocorticoids in in vivo adrenalectomized rat colon. 348

Baud, L., Goetzl, E. J., and Koo, C. H. Stimulation by leukotriene D_4 of increases in the cytosolic concentration of calcium in dimethylsulfoxide-differentiated HL-60 cells. 983

Bauer, H. *See* Krempler, Kostner, Friedl, Paulweber, Bauer, and Sandhofer.

Bauer, K. A., Weiss, L. M., Sparrow, D., Vokonas, P. S., and Rosenberg, R. D. Aging-associated changes in indices of thrombin generation and protein C activation in humans. Normative aging study. 1527

— *See* Conway, Bauer, Barzegar, and Rosenberg.

Baum, M. *See* Hays, Baum, and Kokko.

Baylen, B. *See* Padbury, Agata, Ludlow, Ikegami, Baylen, and Humme.

Becker, D. V. *See* Peter, Gerber, Studer, Becker, and Peterson.

Effect of short-term systemic glucocorticoid treatment on human nasal mediator release after antigen challenge. *U. Pipkorn, D. Proud, L. M. Lichtenstein, R. P. Schleimer, S. P. Peters, N. F. Adkinson, Jr., A. Kagey-Sobotka, P. S. Norman, and R. M. Naclerio* 957

1,25-Dihydroxyvitamin D_3 induces collagen binding to the human monocyte line U937. *B. S. Polla, A. M. Healy, M. Byrne, and S. M. Krane* 962

Role of Na^+/H^+ antiporter in rat proximal tubule bicarbonate absorption. *P. A. Preisig, H. E. Ives, E. J. Cragoe, Jr., R. J. Alpern, and F. C. Rector, Jr.* 970

Dietary calcium intake and rates of bone loss in women. *B. L. Riggs, H. W. Wahner, L. J. Melton III, L. S. Richelson, H. L. Judd, and W. M. O'Fallon* 979

Stimulation by leukotriene D_4 of increases in the cytosolic concentration of calcium in dimethylsulfoxide-differentiated HL-60 cells. *L. Baud, E. J. Goetzl, and C. H. Koo* 983

Weight reduction increases adipose tissue lipoprotein lipase responsiveness in obese women. *R. H. Eckel and T. J. Yost* 992

Defective antigen presentation and novel structural properties of DR1 from an HLA haplotype associated with 21-hydroxylase deficiency. *J. E. Davis, R. R. Rich, M. Van, H. V. Le, M. S. Pollack, and R. G. Cook* 998

Recombinant interferon gamma augments phagocyte superoxide production and X-chronic granulomatous disease gene expression in X-linked variant chronic granulomatous disease. *R. A. B. Ezekowitz, S. H. Orkin, and P. E. Newburger* 1009

Purification of a human liver cytochrome P-450 immunochemically related to several cytochromes P-450 purified from untreated rats. *S. A. Wrighton, P. E. Thomas, P. Willis, S. L. Maines, P. B. Watkins, W. Levin, and P. S. Guzelian* 1017

Hemophilia B (Factor $IX_{Seattle\ 2}$) due to a single nucleotide deletion in the gene for Factor IX. *B. G. Schach, S. Yoshitake, and E. W. Davie* 1023

Identification of glucocorticoid-inducible cytochromes P-450 in the intestinal mucosa of rats and man. *P. B. Watkins, S. A. Wrighton, E. G. Schuetz, D. T. Molowa, and P. S. Guzelian* 1029

Effect of chronic hyperglycemia on in vivo insulin secretion in partially pancreatectomized rats. *L. Rossetti, G. I. Shulman, W. Zawalich, and R. A. DeFronzo* 1037

Effects of angiotensin-converting enzyme inhibition on altered renal hemodynamics induced by low protein diet in the rat. *E. Fernández-Repollet, E. Tapia, and M. Martínez-Maldonado* 1045

Body composition, not body weight, is related to cardiovascular disease risk factors and sex hormone levels in men. *K. R. Segal, A. Dunaif, B. Gutin, J. Albu, A. Nyman, and F. X. Pi-Sunyer* 1050

Retrovirus-induced feline pure red cell aplasia. Hematopoietic progenitors are infected with feline leukemia virus and erythroid burst-forming cells are uniquely sensitive to heterologous complement. *J. L. Abkowitz, R. D. Holly, and C. K. Grant* 1056

Regulation of gastric acid secretion by neurotensin in man. Evidence against a hormonal role. *M. H. Mogard, V. Maxwell, B. Sytnik, and J. H. Walsh* 1064

Role of sodium in thyroid hormone uptake by rat skeletal muscle. *M. Centanni and J. Robbins* 1068

Long-term effect of insulin on glucose transport and insulin binding in cultured adipocytes from normal and obese humans with and without non–insulin-dependent diabetes. *M. K. Sinha, L. G. Taylor, W. J. Pories, E. G. Flickinger, D. Meelheim, S. Atkinson, N. S. Sehgal, and J. F. Caro* 1073

Plasminogen activator inhibitor is associated with the extracellular matrix of cultured bovine smooth muscle cells. *B. S. Knudsen, P. C. Harpel, and R. L. Nachman* . . 1082

Role of oxidants in DNA damage. Hydroxyl radical mediates the synergistic DNA damaging effects of asbestos and cigarette smoke. *J. H. Jackson, I. U. Schraufstatter, P. A. Hyslop, K. Vosbeck, R. Sauerheber, S. A. Weitzman, and C. G. Cochrane* 1090

Effect of fetal adrenalectomy on catecholamine release and physiologic adaptation at birth in sheep. *J. Padbury, Y. Agata, J. Ludlow, M. Ikegami, B. Baylen, and J. Humme* 1096

Effects of polymorphonuclear leukocyte transmigration on the barrier function of cultured intestinal epithelial monolayers. *S. Nash, J. Stafford, and J. L. Madara* . . . 1104

Relative contribution of leukotriene B_4 to the neutrophil chemotactic activity produced by the resident human alveolar macrophage. *T. R. Martin, G. Raugi, T. L. Merritt, and W. R. Henderson, Jr.* 1114

Demonstration of 2-hydroxybenzoylglycine as a drug binding inhibitor in newborn infants. *B. Suh, S. J. Wadsworth, and D. M. Lichtenwalner* 1125

Metabolism and placental transfer of ^{125}I-proinsulin and ^{125}I-tyrosylated C-peptide in the pregnant rhesus monkey. *P. A. Gruppuso, J. B. Susa, P. Sehgal, B. Frank, and R. Schwartz* 1132

Gray platelet syndrome. Demonstration of alpha granule membranes that can fuse with the cell surface. *J.-P. Rosa, J. N. George, D. F. Bainton, A. T. Nurden, J. P. Caen, and R. P. McEver* 1138

Dietary intake of phosphorus modulates the circadian rhythm in serum concentration of phosphorus. Implications for the renal production of 1,25-dihydroxyvitamin D. *A. A. Portale, B. P. Halloran, and R. C. Morris, Jr.* 1147

Analysis of HLA-D micropolymorphism by a simple procedure: RNA oligonucleotide hybridization. *C. Ucla, J. J. van Rood, J. Gorski, and B. Mach* 1155

Effect of adrenalectomy on transport in the rat medullary thick ascending limb. *J. Work and R. L. Jamison* 1160

Myocardial energy production and consumption remain balanced during positive inotropic stimulation when coronary flow is restricted to basal rates in rabbit heart. *R. C. Marshall, W. W. Nash, M. M. Bersohn, and G. A. Wong* 1165

Transient elevation of messenger RNA encoding gastrin-releasing peptide, a putative pulmonary growth factor in human fetal lung. *E. R. Spindel, M. E. Sunday, H. Hofler, H. J. Wolfe, J. F. Habener, and W. W. Chin* 1172

Inhibition of the activation of Hageman factor (Factor XII) by peripheral blood cells. *O. D. Ratnoff, M. M. Emanuelson, and N. P. Ziats* 1180

Rapid Publications

Falciparum malaria parasites invade erythrocytes that lack glycophorin A and B (M^kM^k). Strain differences indicate receptor heterogeneity and two pathways for invasion. *T. J. Hadley, F. W. Klotz, G. Pasvol, J. D. Haynes, M. H. McGinniss, Y. Okubo, and L. H. Miller* 1190

Induction of the skeletal α–actin gene in α_1–adrenoceptor-mediated hypertrophy of rat cardiac myocytes. *N. H. Bishopric, P. C. Simpson, and C. P. Ordahl* 1194

Molecular studies of ceruloplasmin deficiency in Wilson's disease. *M. J. Czaja, F. R. Weiner, S. J. Schwarzenberg, I. Sternlieb, I. H. Scheinberg, D. H. Van Thiel, N. F. LaRusso, M.-A. Giambrone, R. Kirschner, M. L. Koschinsky, R. T. A. MacGillivray, and M. A. Zern* . . . 1200

Isolation of a complementary DNA clone for thyroid microsomal antigen homology with the gene for thyroid peroxidase. *P. Seto, H. Hirayu, R. P. Magnusson, J. Gestautas, L. Portmann, L. J. DeGroot, and B. Rapoport* 1205

Rearrangement of the genes for the beta and gamma chains of the T cell receptor is rarely observed in adult B cell lymphoma and chronic lymphocytic leukemia. *A. C. Aisenberg, B. M. Wilkes, and J. O. Jacobson* 1209

Perspectives

Possible role of anti-idiotypic antibodies in the induction of tumor immunity. *R. C. Kennedy, E.-M. Zhou, R. E. Lanford, T. C. Chanh, and C. A. Bona* 1217

Regular Articles

Monoclonal antibodies to human erythrocyte membrane Ca^{++}-Mg^{++} adenosine triphosphatase pump recognize an epitope in the basolateral membrane of human kidney distal tubule cells. *J. L. Borke, J. Minami, A. Verma, J. T. Penniston, and R. Kumar* 1225

Atrial natriuretic peptide protects against acute ischemic renal failure in the rat. *S. G. Shaw, P. Weidmann, J. Hodler, A. Zimmermann, and A. Paternostro* 1232

Isolation of the galactose-binding lectin that mediates the in vitro adherence of *Entamoeba histolytica*. *W. A. Petri, Jr., R. D. Smith, P. H. Schlesinger, C. F. Murphy, and J. I. Ravdin* 1238

Rat and human colonic mucins bind to and inhibit adherence lectin of *Entamoeba histolytica*. *K. Chadee, W. A. Petri, Jr., D. J. Innes, and J. I. Ravdin* 1245

Osmoprotective activity for *Escherichia coli* in mammalian renal inner medulla and urine. Correlation of glycine and proline betaines and sorbitol with response to osmotic loads. *S. T. Chambers and C. M. Kunin* . . 1255

Sex steroids and bone mass. Study of changes about the time of menopause. *C. Slemenda, S. L. Hui, C. Longcope, and C. C. Johnston* 1261

Role of fibronectin on the clearance and tissue uptake of antigen and immune complexes in rats. *F. G. Cosio and A. P. Bakaletz* 1270

Regulation of the expression of tissue inhibitor of metalloproteinases and collagenase by retinoids and glucocorticoids in human fibroblasts. *S. D. Clark, D. K. Kobayashi, and H. G. Welgus* 1280

Oxidants spontaneously released by alveolar macrophages of cigarette smokers can inactivate the active site of α1-antitrypsin, rendering it ineffective as an inhibitor of neutrophil elastase. *R. C. Hubbard, F. Ogushi, G. A. Fells, A. M. Cantin, S. Jallat, M. Courtney, and R. G. Crystal* 1289

Concentration of NADH–cytochrome b_5 reductase in erythrocytes of normal and methemoglobinemic individuals measured with a quantitative radioimmunoblotting assay. *N. Borgese, G. Pietrini, and S. Gaetani* 1296

Determination of Krebs cycle metabolic carbon exchange in vivo and its use to estimate the individual contributions of gluconeogenesis and glycogenolysis to overall glucose output in man. *A. Consoli, F. Kennedy, J. Miles, and J. Gerich* 1303

Contribution of lymphatic absorption to loss of ultrafiltration and solute clearances in continuous ambulatory peritoneal dialysis. *R. A. Mactier, R. Khanna, Z. Twardowski, H. Moore, and K. D. Nolph* 1311

Herpes simplex virus infection in human arterial cells. Implications in arteriosclerosis. *D. P. Hajjar, K. B. Pomerantz, D. J. Falcone, B. B. Weksler, and A. J. Grant* 1317

Polyamines mediate uncontrolled calcium entry and cell damage in rat heart in the calcium paradox. *H. Koenig, A. D. Goldstone, J. J. Trout, and C. Y. Lu* 1322

Norepinephrine metabolism in humans. Kinetic analysis and model. *O. A. Linares, J. A. Jacquez, L. A. Zech, M. J. Smith, J. A. Sanfield, L. A. Morrow, S. G. Rosen, and J. B. Halter* 1332

Carbohydrate heterogeneity of fibronectins. Synovial fluid fibronectin resembles the form secreted by cultured synoviocytes but differs from the plasma form. *S. Carsons, B. B. Lavietes, A. Slomiany, H. S. Diamond, and E. Berkowitz* 1342

Endothelium-dependent responses in autogenous femoral veins grafted into the arterial circulation of the dog. *V. M. Miller, M. M. Reigel, L. H. Hollier, and P. M. Vanhoutte* 1350

Effects of potassium on ammonia transport by medullary thick ascending limb of the rat. *D. W. Good* 1358

Z-type α1-antitrypsin is less competent than M1-type α1-antitrypsin as an inhibitor of neutrophil elastase. *F. Ogushi, G. A. Fells, R. C. Hubbard, S. D. Straus, and R. G. Crystal* 1366

Involvement of fertilization antigen (FA-1) in involuntary immunoinfertility in humans. *R. K. Naz* 1375

Protein synthesis in hepatocytes isolated from patients with gastrointestinal malignancy. *H. F. Starnes, Jr., R. S. Warren, and M. F. Brennan* 1384

α_2-Antiplasmin enschede: dysfunctional α_2-antiplasmin molecule associated with an autosomal recessive hemorrhagic disorder. *C. Kluft, H. K. Nieuwenhuis, D. C. Rijken, E. Groeneveld, G. Wijngaards, W. van Berkel, G. Dooijewaard, and J. J. Sixma* 1391

In vivo regulation of human mononuclear leukocyte 3-hydroxy-3-methylglutaryl coenzyme A reductase. Decreased enzyme catalytic efficiency in familial hypercholesterolemia. *P. W. Stacpoole, D. M. Bridge, I. M. Alvarez, R. B. Goldberg, and H. J. Harwood, Jr.* 1401

Human adenine phosphoribosyltransferase. Identification of allelic mutations at the nucleotide level as a cause of complete deficiency of the enzyme. *Y. Hidaka, T. D. Palella, T. E. O'Toole, S. A. Tarlé, and W. N. Kelley* 1409

An initiation codon mutation (AUG → GUG) of the human α1-globin gene. Structural characterization and evidence for a mild thalassemic phenotype. *P. Moi, F. E. Cash, S. A. Liebhaber, A. Cao, and M. Pirastu* 1416

P-31 nuclear magnetic resonance spectroscopic study of obstructive uropathy in the rat. *J. I. Shapiro and L. Chan* 1422

Human placental transport of cimetidine. *S. Schenker, J. Dicke, R. F. Johnson, L. L. Mor, and G. I. Henderson* 1428

Role of proaggregatory and antiaggregatory prostaglandins in hemostasis. Studies with combined thromboxane synthase inhibition and thromboxane receptor antagonism. *P. Gresele, J. Arnout, H. Deckmyn, E. Huybrechts, G. Pieters, and J. Vermylen* 1435

Cytoprotective effects of glycine and glutathione against hypoxic injury to renal tubules. *J. M. Weinberg, J. A. Davis, M. Abarzua, and T. Rajan* 1446

Selective binding of somatostatin-14 and somatostatin-28 to islet cells revealed by quantitative electron microscopic autoradiography. *M. Amherdt, Y. C. Patel, and L. Orci* 1455

Rapid formation of large molecular weight α-polymers in cross-linked fibrin induced by high Factor XIII concentrations. Role of platelet Factor XIII. *C. W. Francis and V. J. Marder* 1459

Apparent tolerance to the acute effect of nicotine results in part from distribution kinetics. *H. C. Porchet, N. L. Benowitz, L. B. Sheiner, and J. R. Copeland* 1466

Glycoprotein hormone genes are expressed in clinically nonfunctioning pituitary adenomas. *J. L. Jameson, A. Klibanski, P. McL. Black, N. T. Zervas, C. M. Lindell, D. W. Hsu, E. C. Ridgway, and J. F. Habener* 1472

Characterization of the enzymatic defect in late-onset muscle phosphofructokinase deficiency. New subtype of glycogen storage disease type VII. *S. Vora, S. DiMauro, D. Spear, D. Harker, and M. J. Danon* 1479

Human red cells scavenge extracellular hydrogen peroxide and inhibit formation of hypochlorous acid and hydroxyl radical. *C. C. Winterbourn and A. Stern* . . . 1486

Activation of terminal components of complement in patients with Guillain–Barré syndrome and other demyelinating neuropathies. *C. L. Koski, M. E. Sanders, P. T. Swoveland, T. J. Lawley, M. L. Shin, M. M. Frank, and K. A. Joiner* 1492

Aging-associated changes in indices of thrombin generation and protein C activation in humans. Normative aging study. *K. A. Bauer, L. M. Weiss, D. Sparrow, P. S. Vokonas, and R. D. Rosenberg* 1527

Suppression of hemostatic system activation by oral anticoagulants in the blood of patients with thrombotic diatheses. *E. M. Conway, K. A. Bauer, S. Barzegar, and R. D. Rosenberg* 1535

fur gene expression as a discriminating marker for small cell and nonsmall cell lung carcinomas. *J. A. Schalken, A. J. M. Roebroek, P. P. C. A. Oomen, S. Sc. Wagenaar, F. M. J. Debruyne, H. P. J. Bloemers, and W. J. M. Van de Ven* 1545

Neutrophil activation on biological surfaces. Massive secretion of hydrogen peroxide in response to products of macrophages and lymphocytes. *C. F. Nathan* 1550

Effects of protein kinase C activation on sodium, potassium, chloride, and total CO_2 transport in the rabbit cortical collecting tubule. *S. R. Hays, M. Baum, and J. P. Kokko* 1561

Dietary fat clearance in normal subjects is regulated by genetic variation in apolipoprotein E. *M. S. Weintraub, S. Eisenberg, and J. L. Breslow* 1571

Regulation of Factor XIa activity by platelets and α_1-protease inhibitor. *P. N. Walsh, D. Sinha, F. Kueppers, F. S. Seaman, and K. B. Blankstein* 1578

Development of partial tolerance to the gastrointestinal effects of high doses of recombinant tumor necrosis factor-α in rodents. *J. S. Patton, P. M. Peters, J. McCabe, D. Crase, S. Hansen, A. B. Chen, and D. Liggitt* . . . 1587

Apolipoprotein $CII_{St.\ Michael}$. Familial apolipoprotein CII deficiency associated with premature vascular disease. *P. W. Connelly, G. F. Maguire, and J. A. Little* 1597

Effect of cyclosporin A treatment on the production of antibody in insulin-dependent (type I) diabetic patients. *C. Boitard, G. Feutren, L. Castano, M. Debray-Sachs, R. Assan, J. Hors, and J. F. Bach* 1607

Abnormal ultraviolet mutagenic spectrum in plasmid DNA replicated in cultured fibroblasts from a patient with the skin cancer–prone disease, xeroderma pigmentosum. *S. Seetharam, M. Protić-Sabljić, M. M. Seidman, and K. H. Kraemer* 1613

Effect of perturbation of specific folate receptors during in vitro erythropoiesis. *A. C. Antony, E. Bruno, R. A. Briddell, J. E. Brandt, R. S. Verma, and R. Hoffman* 1618

On the association of the platelet-specific alloantigen, Pen^a, with glycoprotein IIIa. Evidence for heterogeneity of glycoprotein IIIa. *K. Furihata, D. J. Nugent, A. Bissonette, R. H. Aster, and T. J. Kunicki* 1624

Polyl · $polyC_{12}U$–mediated inhibition of loss of alloantigen responsiveness and viral replication in human CD4+ T cell clones exposed to human immunodeficiency virus in vitro. *J. Laurence, J. Kulkosky, S. M. Friedman, D. N. Posnett, and P. O. P. Ts'o* 1631

Restriction fragment length polymorphism of the C1 inhibitor gene in hereditary angioneurotic edema. *M. Cicardi, T. Igarashi, M. S. Kim, D. Frangi, A. Agostoni, and A. E. Davis III* 1640

Expression of a metalloproteinase that degrades native type V collagen and denatured collagens by cultured human alveolar macrophages. *M. S. Hibbs, J. R. Hoidal, and A. H. Kang* 1644

Abnormal regulation of renal kallikrein in experimental diabetes. Effects of insulin on prokallikrein synthesis and activation. *A. A. Jaffa, D. H. Miller, G. S. Bailey, J. Chao, H. S. Margolius, and R. K. Mayfield* 1651

Regulation of pH in rat papillary tubule cells in primary culture. *J. G. Kleinman, S. S. Blumenthal, J. H. Wiessner, K. L. Reetz, D. L. Lewand, N. S. Mandel, G. S. Mandel, J. C. Garancis, and E. J. Cragoe, Jr.* 1660

Glycoconjugate expression in normal, metaplastic, and neoplastic human upper gastrointestinal mucosa. *C. Shimamoto, W. M. Weinstein, and C. R. Boland* . . . 1670

Hypercalcemia induced with an arotinoid in thyroparathyroidectomized rats. New model to study bone resorption in vivo. *U. Trechsel, A. Stutzer, and H. Fleisch* 1679

Effect of adrenergic and muscarinic cholinergic agonists on atrial natriuretic peptide secretion by isolated rat atria. Potential role of the autonomic nervous system in modulating atrial natriuretic peptide secretion. *R. J. Schiebinger, M. Z. Baker, and J. Linden* 1687

Suppression of apolipoprotein B production during treatment of cholesteryl ester storage disease with lovastatin. Implications for regulation of apolipoprotein B synthesis. *H. N. Ginsberg, N.-A. Le, M. P. Short, R. Ramakrishnan, and R. J. Desnick* 1692

Interaction of murine granulocyte–macrophage progenitors and supporting stroma involves a recognition mechanism with galactosyl and mannosyl specificities. *S. Aizawa and M. Tavassoli* 1698

Molecular analysis of a variant type of familial amyloidotic polyneuropathy showing cerebellar ataxia and pyramidal tract signs. *H. Furuya, K. Yoshioka, H. Sasaki, Y. Sakaki, M. Nakazato, H. Matsuo, A. Nakadai, S.-i. Ikeda, and N. Yanagisawa* 1706

Binding of tissue plasminogen activator to cultured human endothelial cells. *K. A. Hajjar, N. M. Hamel, P. C. Harpel, and R. L. Nachman* 1712

Modulation of fibronectin gene expression in human mononuclear phagocytes. *K. Yamauchi, Y. Martinet, and R. G. Crystal* 1720

Recombinant superoxide dismutase reduces oxygen free radical concentrations in reperfused myocardium. *J. L. Zweier, B. K. Rayburn, J. T. Flaherty, and M. L. Weisfeldt* 1728

Doxorubicin-induced inhibition of prolyl hydroxylation during collagen biosynthesis in human skin fibroblast cultures. Relevance to impaired wound healing. *T. Sasaki, K. C. Holeyfield, and J. Uitto* 1735

In vivo metabolism of proapolipoprotein A-1 in Tangier disease. *D. Bojanovski, R. E. Gregg, L. A. Zech, M. S. Meng, C. Bishop, R. Ronan, and H. B. Brewer, Jr.* . . 1742

Quantitation of the pathways of hepatic glycogen formation on ingesting a glucose load. *I. Magnusson, V. Chandramouli, W. C. Schumann, K. Kumaran, J. Wahren, and B. R. Landau* 1748

Alpha$_2$ adrenergic agonists stimulate Na^+-H^+ antiport activity in the rabbit renal proximal tubule. *E. P. Nord, M. J. Howard, A. Hafezi, P. Moradeshagi, S. Vaystub, and P. A. Insel* 1755

Specific action of the lipoxygenase pathway in mediating angiotensin II–induced aldosterone synthesis in isolated adrenal glomerulosa cells. *J. L. Nadler, R. Natarajan, and N. Stern* 1763

T cell receptor α-chain gene rearrangements in B-precursor leukemia are in contrast to the findings in T cell acute lymphoblastic leukemia. Comparative study of T cell receptor gene rearrangement in childhood leukemia. *J. Hara, S. H. Benedict, T. W. Mak, and E. W. Gelfand* 1770

Peroxisomal fatty acid β-oxidation in relation to the accumulation of very long chain fatty acids in cultured skin fibroblasts from patients with Zellweger syndrome and other peroxisomal disorders. *R. J. A. Wanders, C. W. T. van Roermund, M. J. A. van Wijland, R. B. H. Schutgens, J. Heikoop, H. van den Bosch, A. W. Schram, and J. M. Tager* 1778

Effect of insulin and plasma amino acid concentrations on leucine metabolism in man. Role of substrate availability on estimates of whole body protein synthesis. *P. Castellino, L. Luzi, D. C. Simonson, M. Haymond, and R. A. DeFronzo* 1784

Rapid Publications

Structural relationship of human apolipoprotein B48 to apolipoprotein B100. *T. L. Innerarity, S. G. Young, K. S. Poksay, R. W. Mahley, R. S. Smith, R. W. Milne, Y. L. Marcel, and K. H. Weisgraber* 1794

Cyclic adenosine monophosphate–dependent kinase in cystic fibrosis tracheal epithelium. *R. Barthelson and J. Widdicombe* 1799

Parathyroid hormonelike protein from human renal carcinoma cells. Structural and functional homology with parathyroid hormone. *G. J. Strewler, P. H. Stern, J. W. Jacobs, J. Eveloff, R. F. Klein, S. C. Leung, M. Rosenblatt, and R. A. Nissenson* 1803

Restoration of endothelium-dependent relaxation by dietary treatment of atherosclerosis. *D. G. Harrison, M. L. Armstrong, P. C. Freiman, and D. D. Heistad* . . 1808

Platelet glycoprotein IIb. Chromosomal localization and tissue expression. *P. F. Bray, J.-P. Rosa, G. I. Johnston, D. T. Shiu, R. G. Cook, C. Lau, Y. W. Kan, R. P. McEver, and M. A. Shuman* 1812

Hyperplasia of myocyte nuclei in long-term cardiac hypertrophy in rats. *G. Olivetti, R. Ricci, and P. Anversa* 1818
